

Amendments to the Specification:

Kindly insert the following three paragraphs at the bottom of page 78 of the translation of the specification being submitted herewith following line 26:

Those skilled in the art will appreciate that the above shown and described eco-value transfer method and systems may be implemented with various ways of e-commerce buildup or constructions. Special-purposes software may be made for this purpose only when exclusive communication lines are in use by all parties concerned. If the widely used Internet and computer hardware devices of different operating systems such as Windows XP, Linux and Apples are in use, open source languages such as JAVA, Perl, and Oracle may be used for implementations of the eco-value transfer methods and systems. If commercially available posting services such as Hostway are utilized, then several of their rental software, for example, disk space and traffic, additional business tools, site management tools, email, ecommerce features, servers specifications, data center, multimedia, security features and support and backup may be used together for setup of e-commerce environments.

Those skilled in the art will also appreciate that the eco-value transfer methods and systems illustrated and described above may need encryption and firewall technologies for security reasons.

From the foregoing it will be appreciated that, although specific embodiments have been described herein for purposes of illustration, various modifications may be made without deviating from the spirit and scope of the invention. Accordingly, the invention is not limited except as by the appended claims and the elements recited therein. In addition, while certain aspects of the invention are presented below in certain claim forms, the inventors contemplate the various aspects of the invention in any available claim form. For example,

while only some aspects of the invention may currently be recited as being embodied in a computer-readable medium, other aspects may likewise be embodied.
